

Case Studies of Fundraising Supporter

How do I get consultation support on fundraising?

Let us introduce one case to explain our service.
Please feel free to talk to us!

▼Case: Outline of Consultation

Inquirer: International entrepreneur

Language: English

Reasons of using service:

He set up a consulting company in Japan to research markets in Japan, China, and U.S. In their second term, he visited financial institutions to make loans for recruiting analysts and translators to expand their business. But it didn't go well. To receive support for his company's fundraising, he decided to receive consultation in Business Development Center Tokyo.

▼The Result of this Case

After receiving support from fundraising supporters, the international entrepreneur received 6 million yen from financial institutions as the running cost of his company.

※The case we introduced above is one example of our support, and it doesn't ensure the successful loaning for all applicants.

COMMENTS from Previous Inquirers

If you are a entrepreneur visiting Japan, I recommend you to receive a consultation at Business Development Center Tokyo!

I appreciate that I have met consultants at Business Development Center Tokyo (BDCT) . Since it is hard for a startup from overseas to solve all problems by ourselves, the support from BDCT was very helpful. If you are an entrepreneur visiting Japan for your business, I recommend getting consultation at BDCT. I won't forget that I received amazing services at BDCT. We will continue to make efforts to make Tokyo a even better city as a business hub.
